What We Offer

Biogen's success depends on having the right people with the right skills to help us build and advance our pipeline and achieve meaningful results for patients.

- ▶ At Biogen we offer our employees the better of two worlds: the agility and spirit of an independent biotechnology company, and the stability of a financially strong enterprise with a generous benefits package.
- ▶ Based on motivation and performance Biogen offers a range of development opportunities. Each employee is encouraged to create a development plan to help staying focused on professional and personal growth.
